

OPENING AND CLOSING

- *PLAN A Opening**
This is our complete opening. We reassemble and activate the filter system, check connections and start heater. This opening includes removal, cleaning and storing your solid winter cover on your property.
- *PLAN B Opening**
This is our complete opening with a mesh cover instead of a solid cover. All of the above applies with the exception of the cover style.
- *PLAN C Opening**
This plan is for those who wish to remove their own cover. We reassemble and activate the filter system, check connections and start heater.

- **PLAN A Closing**
This is our complete closing. We blow out the lines. We drain and hose out your filter and pump. We install winter plugs and gizmos (*Available for purchase or provided by customer*), and we disconnect pool accessories and place your solid cover on the pool.
- **PLAN B Closing**
This is our complete closing with a mesh cover instead of a solid cover. All of the above applies with the exception of the cover style.
- **PLAN C Closing**
This plan is for those who wish to place their own cover on their pool and have experience doing so. We blow out the lines. We drain and hose out your filter and pump. We install winter plugs and gizmos (*Available for purchase or provided by customer*), and we disconnect pool.

***Water needs to be raised to mid tile level.**

****Water needs to be lowered 4 inches below tile.**
